June

1st International Conference on Nanofluids

26 June 2019 - 28 June 2019

 UNIVERSITAT JAUME I, CASTELLÓ, SPAIN

Organized under the auspices of the COST Action NANOUP TAKE, provide platforms for global collaboration and the exchange of knowledge between researchers and engineers working in nanofluids – suspensions with particles ranging in size from 10 nm to 100 nm – and energy applications related areas.

The ICNf 2019 will include a focus on **production and characterisation of nanofluids and liquid-based nanocomposites, nanofluid-based heat transfer and storage of thermal energy, as well as industrial applications.**

Representatives of related industries are invited to the ICNf 2019 to enable direct knowledge transfer from science to industry.
